RE: Lake Judy Lee Cleanup

Dear Mr. Estigo:

I wish to convey sincere praise to your office on the recent contracting of Eco-Pond Rescue. Prior to their efforts, Lake Judy Lee was in a continual state of murky retention (at least in appearance).

As a home owner with a view that backs directly up to the lake I have watched the progress being made. Many others and I are elated to see the splendor of the actual unpolluted appearing surface on the lake; hence, the only person(s) who have stated any annoyance of this endeavor are those "few" whom are always relied upon to "complain about everything". If you have neighbors you are smiling ... if not, you may not be able to appreciate my aforesaid statement.

Again, thank you for contracting Eco-Pond Rescue. They (John & Nick) have certainly been pleasant, efficient, knowledgeable and diligent in their efforts.

If you have any questions, please don't hesitate to call me.

Sincerely,

Sheree M. LaDouceur, LFD
